ATTENTION!

Dear resident,

As stated in the current federal law, when entering Germany from a COVID19 high-risk country as classified by the Robert-Koch-Institute (QRCODE →), you have to follow some **rules**:

- Until you are proven negative by a test that you are not infected with the Sars-CoV2-Virus, you have to isolate yourself. This means, that you have to **stay in your flat until you got a negative test result** from a COVID19-test.
  This test has to be done **within 72 hours after entry**.
- **Always** wear mouth-nose-protection **on the floor and in the common rooms**. This is to protect others!
- Make sure to only enter the common rooms (**kitchen and bath**) when absolutely necessary, **ALONE** and wearing a mask all the time. When entering, **flip the sign at the door**, so others know that it is occupied. When leaving a common room, make sure to **open the windows for 3-5 minutes** to ventilate the room and reverse the status-sign so others may use the room. Also **clean the surfaces with appropriate cleaning.**

When you arrive and read this, give us a note to **corona@rosenbachweg.de** with your name and room number, so we can assist in determining the next steps, help you with getting food and provide you with further information.

- You should have received a copy of a cheat-sheet from the Studentenwerk "Entering Göttingen", if not, please ask for one.
- **Stay home and safe**!

In case of any **emergency**, do not hesitate to contact
- the first mayor Alex (+4916098327497)
- or the **CoronaTaskForce** at **corona@rosenbachweg.de**
